PROFILE

Web Developer with over 2 years of experience in Java Full Stack development, specializing in frontend technologies like Angular and AngularJS. Adept at creating responsive and user-friendly web applications, with additional experience in backend development using Java and SQL. Seeking to leverage my expertise to contribute to innovative projects.

Education

SRM Institute of Science and Technology, Bachelor of Technology in Computer Science   July 2018 – May 2022

- GPA: 8.0/10.0

Technical Forte

- **Frontend Development:** Angular, AngularJS, TypeScript, JavaScript, HTML, CSS
- **Backend Development:** Java, SQL
- **Version Control:** Git
- **Tools:** Visual Studio Code, Eclipse, IntelliJ IDEA
- **Soft Skills:** Team Collaboration, Problem Solving, Code Review

Experience

SR Analyst / Software Engineer, Capgemini – Gurugram   July 2022 – PRESENT

- Developed and maintained web applications using Angular, AngularJS, TypeScript, JavaScript, HTML, and CSS.
- Created and integrated APIs for CRUD operations using Java in middleware and SQL in backend.
- Collaborated with cross-functional teams to design, develop, and deploy scalable web applications.
- Contributed to improving application performance by optimizing frontend code and implementing best practices.
- Participated in code reviews and provided mentorship to junior developers on the team.

Projects

Repair Approval Web Application

- Developed a responsive web application using Angular, PrimeNG library, enhancing user experience and interface design.
- Implemented backend services with Java for data management and integrated SQL databases for persistent storage.
- Tools Used: TypeScript, HTML, CSS, VSCode, Java, SQL, MyEclipse, SpringBoot, DBeaver

ServiceNet Web Application

- Developed a responsive web application using AngularJS, Kendo UI, enhancing user experience and interface design.
- Implemented backend services with Java for data management and integrated SQL databases for persistent storage.
- Tools Used: JavaScript, HTML, CSS, Java, SQL, MyEclipse, SpringBoot, DBeaver

CouponWala (Case Study)   Deals and Coupons Finder

- Developed a responsive web application using Angular, enhancing user experience and interface design.
- Implemented backend services with Java for data management and integrated NoSQL databases for persistent storage.
- Tools Used: TypeScript, HTML, CSS, Java, NoSQL, MyEclipse, SpringBoot, MongoDB

Additional Experience And Awards

AWS Certified Cloud Practitioner (2022-2025)

JAVA Full Stack + Angular Course (Udemy)
